## **Analysis: From Symphony Orchestra to Chamber Orchestra**

Berlioz: Symphonie Fantastique, Op. 14 (1830)

Website: <https://restructuringclassicalmusic.com/extreme-scoring/>

YouTube: <https://youtu.be/UdR1b8nFJ4c>

### Why Did I Pick This Piece?

This is one of the great orchestral showpieces for full symphony orchestra from French composer Hector Berlioz from the early romantic period. It is fun to play, great to listen to and (to no surprise) has some great clarinet solos<sup>1</sup> that every orchestra clarinetist studies. While it is a huge piece with great orchestration, it is also a bit easier to rescore than the later romantic composers that tended to include large numbers of instruments and enormous numbers of players in their orchestration. Since it was published in 1830, it is also in the public domain. Even though it was written over 190 years ago, the subject matter of the programmatic aspects of the work are still contemporary – a young man struggling with drug abuse and his infatuation with a woman.

### Instrumentation (note some of the doubles) – 23 Players

1. Flute/Piccolo
2. Oboe
3. Clarinet 1 & 2 in A and Bb, Clarinet 1 in Eb (last movement)
4. Bassoon
5. Horn 1 & 2 in F
6. Trumpet in C
7. Trombone 1 & 2 (often covering Horn 3,4)
8. Tuba
9. Timpani/triangle
10. Percussion playing timpani 2 in the 3<sup>rd</sup> movement
11. Harp
12. 4 Violins (Violin 1, 2)
13. 2 Violas
14. 2 Celli
15. Contrabass.

---

<sup>1</sup> You can hear my rendition of the clarinet solo in the slow movement at [Drapkin Berlioz Slow Movement Solo](#). This was a guest Principal Clarinet performance with the Norwalk Symphony in Connecticut, USA.

## Getting the Score into Sibelius

This piece took many months to enter into the computer and rescore. Unlike with the Mozart and Rimsky-Korsakov reductions I had already completed, I had trouble finding a version of this piece that was already in Sibelius<sup>2</sup> digital format. I needed a copy of the original score in Sibelius file format, and that was exceedingly difficult.

I did finally locate a version of the score in Sibelius format at the Association Nationale Hector Berlioz in France, but they refused to share it with me, even though I was polite to the French and even said “please”. What I ended up doing instead was to scan a PDF of the score<sup>3</sup> using the PhotoScore Ultimate software<sup>4</sup>, which will scan music into digital form, either from a flatbed scanner or from a PDF file. The challenge with all OCR<sup>5</sup> programs – whether it is text or sheet music – is that they are only as good as the quality of the document being scanned. The lower the quality and sharpness, the more error artifacts are introduced. In the case of sheet music, it can sometimes have amusing consequences<sup>6</sup>. There is a point where the amount of artifact correction exceeds the time it would take to enter something by hand.

In this case, it was kind of a mixed bag. The number of artifacts in the PhotoScore Ultimate scan of the Berlioz score was not bad, but the software had difficulty figuring out which instrument went into which staff, so most of my editing was spent moving music into the right instrument. It took me three months to get it into Sibelius, especially since the original Berlioz score is 160 pages long. That having been said, I did also hire someone to proofread the score before I started rescoring it as a final step in quality control.

While I was cleaning up the original score, I also went ahead and made changes to some areas that would have created a lot of extra work that I already knew were going to change. These included:

- Combining the two harp parts together
- Combining the two tuba (ophicleide) parts together

---

<sup>2</sup> Sibelius – along with Finale, one of the two major music notation programs. <https://www.avid.com/sibelius>

<sup>3</sup> A PDF of the score to Berlioz: Symphonie Fantastique is readily available for free from IMSLP at

[https://imslp.org/wiki/Symphonie\\_fantastique,\\_H\\_48\\_\(Berlioz,\\_Hector\)](https://imslp.org/wiki/Symphonie_fantastique,_H_48_(Berlioz,_Hector))

<sup>4</sup> PhotoScore Ultimate: <https://www.neuratron.com/photoscore.htm>

<sup>5</sup> OCR: Optical Character Recognition. [https://en.wikipedia.org/wiki/Optical\\_character\\_recognition](https://en.wikipedia.org/wiki/Optical_character_recognition)

<sup>6</sup> Here are the first 3 minutes of the original untouched PhotoScore scan into Sibelius format, and audio rendered by Sibelius. It sounds vaguely familiar, but instead sounds kind of like a version for piano, orchestra and chorus as nightmarishly rendered by Webern or Stockhausen: <https://ccome.org/Symphonie%20Fantastique%20-%20nightmare%20audio%20sequence.mp3> PhotoScore didn't always know what instrument to use, which resulted in a lot of editing. This was a somewhat hilarious rendering by algorithms instead of humans.

7965 Megan Hammock Way  
Sarasota, Florida 34240 USA  
+1 512-590-2544 [michael@drapkin.net](mailto:michael@drapkin.net)

- Moving the English horn solo in the third movement into bassoon. We have only one player doubling oboe/English horn, and that solo alternates between the two instruments, so I had to find another player in the orchestra. After significant experimentation and consultation with professional colleagues, bassoon was the best solution. English Horn players will revile me for eternity for taking away their solo.
- I converted all the horn parts to horn in F, and the trumpet and cornet parts to trumpet in C.
- There were a few other places I did something similar.

The “original” score that I created in Sibelius isn’t strictly the same as the original, but it suited my purposes for rescoring.

### Berlioz Orchestration

Another interesting observation I made as a result of entering this score into Sibelius was that, by and large, Berlioz uses a fixed orchestration for each movement, therefore a lot of instruments are tacet throughout entire movements. For example, harp only appears in the second movement (A Ball), and tuba (ophicleide<sup>7</sup>) only appears in the last two movements. Therefore, I list the instrumentation of each movement in my Editing Notes below.

### Balance

This discussion of orchestral balance appears in the notes for all three of the large orchestral works that I rescored for chamber orchestra: Rimsky-Korsakov: Capriccio Espagnol, Berlioz: Symphonie Fantastique and Strauss: Salome’s Dance of the Seven Veils. The issues are identical in each piece.

The original limitation of 22 players was somewhat arbitrary and arose out of budgetary constraints and small stage sizes. When I was involved in founding the Texas Chamber Symphony, we felt that the maximum number of players that we could realistically budget for and fit on stage was 22 (later 24) players. Our first concert on December 21, 2019 in Pearland, Texas USA used that complement of players.<sup>8</sup>

In all three pieces, the winds and percussion heavily outnumber the strings: 9 strings vs. 14 winds, harp, and percussion in the Rimsky-Korsakov and Berlioz pieces, and 9 strings vs. 15 winds, harp, and percussion (+ celeste) in the Strauss. This will need to be

---

<sup>7</sup> Ophicleide: <https://en.wikipedia.org/wiki/Ophicleide>

<sup>8</sup> Concert December 21<sup>st</sup>, 2019 by the Pearland Chamber Orchestra later renamed as the Texas Chamber Symphony. The concert featured the premiere of my chamber orchestra piece “A Klezmer Set.” I am performing the clarinet solos. <https://youtu.be/fpYHJ3Bzc60>

7965 Megan Hammock Way  
Sarasota, Florida 34240 USA  
+1 512-590-2544 [michael@drapkin.net](mailto:michael@drapkin.net)

addressed at the outset, or the strings will be drowned out. Here I propose three solutions to address ensemble balance:

1. Increase the number of string players. This will be the most likely solution for most chamber orchestras. Instead of 4 violins, 2 violas, 2 celli and bass, increase it to 6 violins, 3 violas, 3 celli and bass, or 8 violins, 4 violas, 4 celli and 2 basses or some variation thereof<sup>9</sup>. But that will significantly increase the size of the orchestra as well as the labor cost.
2. Have the conductor keep the volume down in the winds and percussion to achieve balance. This might be a challenge, although it would make for more impactful tutti/fortissimo sections.
3. Amplify the strings. This certainly can work for performances and recordings, but it adds complexity and cost, and requires solid mixing on the part of the recording engineer, which does not always happen.

This issue doesn't apply to the rescore of the Third Movement Menuetto of Mozart's 40<sup>th</sup>/G minor Symphony, as that piece only uses 7 winds and no percussion out of the 16 players that I indicate in the score, so balance will not be as much of a challenge, nor need to be addressed in the same way that it is in these three orchestral works.

### Editing Notes

- I set the metrics of my Sibelius file (page size, staff size, margins, etc.) the same as those in my Capriccio Espagnol rescore. I also developed a new rescoring technique: I decided to create new instrument staves for all of my new destination parts (e.g., Current Clarinet, New Clarinet) with an "X" at the end of the name so that I can see that they are the target staves. I then had double the number of instrument staves at the beginning (e.g., "Old Clarinet" and "New Clarinet", etc.). This made it much easier to cut and paste from the original to the rescored staves. I deleted the contents of the old staff when the new staves were complete and "hid" the empty staves. Eventually, there was nothing left of the original score, and I was done rescoring.
- At the very beginning, I already began using some of the Extreme Scoring techniques that I have used in my other reductions. I substituted woodwind parts – mostly eliminating unisons or octaves in order to accommodate limited numbers of woodwinds, and when I needed four horns (I only have two available), then I used trombone in place of horn 3 and horn 4 where needed, making sure that horn is always on top in order to retain the original timbre and Horn 2 playing any solos that would otherwise show up in the trombone part.
- The original orchestration calls for two flutes (2<sup>nd</sup> doubling on piccolo), two oboes (2<sup>nd</sup> doubling on English Horn), Clarinet 1 in Bb, A, C & Eb, Clarinet 2 in Bb, A & C, four bassoons, Horn 1 & 2 (Eb, E, F, low Bb), Horn 3 & 4 (C, Eb), Trumpet 1 & 2 (C, Bb, Eb), Cornets 1 & 2 in Bb,

---

<sup>9</sup> The St. Paul Chamber Orchestra, in Minnesota, USA, is one of the best-known professional chamber orchestras in the United States. Their roster lists 6 violins, 2 violas, 4 celli, and 1 bass. See <https://content.thespco.org/people/orchestra-musicians/>. They also expand or contract the number of players based on the instrumental requirements in each score that they perform.

7965 Megan Hammock Way  
Sarasota, Florida 34240 USA  
+1 512-590-2544 [michael@drapkin.net](mailto:michael@drapkin.net)

Cornet obbligato (Bb, “Un Bal”), three trombones, two ophicleides<sup>10</sup>, Percussion (Bells, Cymbals, Bass Drum, Snare Drum), Timpani, two harps, Violin 1, Violin 2, Viola, Celli, Basses.

- The performance time is approximately 50 minutes.

### **First Movement – I. Rêveries - Passions**

Video/Audio 00:00: <https://youtu.be/UdR1b8nFJ4c?t=001>

1. The first movement’s instrumentation:
  - Flute/Piccolo
  - Oboe
  - Clarinet 1,2 in Bb
  - Bassoon
  - Horn 1, 2 in F
  - Trumpet in C
  - Horn 2, 3 played by trombones
  - Timpani 1
  - Strings

---

<sup>10</sup> The parts are played by tuba in modern orchestras.

7965 Megan Hammock Way  
Sarasota, Florida 34240 USA  
+1 512-590-2544 [michael@drapkin.net](mailto:michael@drapkin.net)

2. In the first movement at Letter E (Bar 36), this texture crosses almost all the winds so it gave me a fair amount of leeway in which to move things around without changing the overall timbre. See *Figure 1 & 2*.

7965 Megan Hammock Way  
Sarasota, Florida 34240 USA  
+1 512-590-2544 [michael@drapkin.net](mailto:michael@drapkin.net)

Figure 1 shows a musical score for Bar 36, marked with a large 'E' and a key signature of one flat. The score is for six instruments: Flute 1,2; Oboe; Clarinet 1,2 in Bb; Bassoon 1,2; Horn 1,2 in F; and Horn 3,4 in F. The Flute part is the most active, with dynamics ranging from *pp* to *mf*. The Oboe, Clarinet, and Bassoon parts are mostly sustained chords with some movement. The Horn parts are also sustained. The score is written in a standard orchestral format with multiple staves.

Figure 1: Original score at Bar 36

Figure 2 shows the same musical section as Figure 1, but with the instrumentation expanded to include Trombone 1 and Trombone 2. The Flute part remains the same. The Oboe part is now more active, with dynamics from *p* to *mf*. The Clarinet 1 and 2 parts are also more active. The Horn 1 and 2 parts are now more active, with dynamics from *p* to *mf*. The Trombone 1 and 2 parts are also more active, with dynamics from *p* to *mf*. The score is written in a standard orchestral format with multiple staves.

Figure 2: Same section pared down but spread out across the winds.

7965 Megan Hammock Way  
Sarasota, Florida 34240 USA  
+1 512-590-2544 [michael@drapkin.net](mailto:michael@drapkin.net)

Letter F (Bar 49) was a different story – the triplet texture is only in the flutes and clarinets – four voices, and the root of the Db major chord is doubled. I could replace Flute 2 with oboe, but orchestrationally it would change the flavor of the sound, so I decided to drop Flute 2 that was playing the root of the chord and leave the root only in the clarinet. A bit thinner, but better orchestrationally, and nobody can really hear the difference. See *Figures 3 & 4*.

Figure 3 shows the original score for measures 49-51. The score is for Flute 1,2 and Clarinet 1,2 in Bb. The key signature is Bb major. The tempo/mood is 'F sans ralentir soli'. The dynamics are 'pp'. The music features a triplet texture in the flutes and clarinets. In measure 49, the flutes and clarinets play a triplet of eighth notes. In measure 50, the flutes and clarinets play a triplet of eighth notes. In measure 51, the flutes and clarinets play a triplet of eighth notes. The root of the Db major chord is doubled in the clarinet.

Figure 3: Original score with two pairs of winds.

Figure 4 shows the revised score for measures 49-51. The score is for Flute, Clarinet 1 in Bb, and Clarinet 2 in Bb. The key signature is Bb major. The tempo/mood is 'F Sans ralentir soli'. The dynamics are 'pp'. The music features a triplet texture in the flutes and clarinets. In measure 49, the flute and clarinet 1 play a triplet of eighth notes, and clarinet 2 plays a triplet of eighth notes an octave lower. In measure 50, the flute and clarinet 1 play a triplet of eighth notes, and clarinet 2 plays a triplet of eighth notes an octave lower. In measure 51, the flute and clarinet 1 play a triplet of eighth notes, and clarinet 2 plays a triplet of eighth notes an octave lower. The root of the Db major chord is now only in the clarinet.

Figure 4: Root dropped in Flute 2. Covered by Clarinet 2 an octave lower.

7965 Megan Hammock Way  
Sarasota, Florida 34240 USA  
+1 512-590-2544 [michael@drapkin.net](mailto:michael@drapkin.net)

3. Letter EE (Bar 360) – The oboe solo comes in with texture going on in Violin 1 (quarter note triplets) and clarinets/bassoons texture underneath (syncopated halves and quarters). The texture is written with two clarinets and two bassoons. We only had two clarinets and one bassoon available, so the octave above the bassoon was removed. The top and bottom notes remain the same and the third moves into Clarinet 2. This looked to be a bit sparser without the octave, but it sounded fine. It is a texture, and the focus is on the oboe solo with countermelody in the violas and celli underneath. This could have been done either with the triad remaining or root/third/octave (or passing tones) and could have used another instrument to fill in the fourth voice, but I wanted to retain the clarinet/bassoon sonority, so I preferred to

Figure 5 shows a musical score for measures 360-363. The Oboe part is marked '360 EE Tempo Primo I solo espressivo' and begins with a *p* dynamic. The Clarinet 1,2 in Bb and Bassoon 1,2 parts provide accompaniment with syncopated rhythms and chords, also marked *p*.

drop a voice. See Figures 5 & 6.

Figure 5: Original score with texture in the Clarinets and Bassoons below the Oboe melody.

Figure 6 shows a reduced version of the score for measures 360-363. The Oboe part is marked '360 EE Tempo Primo solo espressivo' and begins with a *p* dynamic. The Clarinet 1 in Bb, Clarinet 2 in Bb, and Bassoon parts provide accompaniment with syncopated rhythms and chords, also marked *p*.

Figure 6: Reduced texture with two Clarinets and one Bassoon.

7965 Megan Hammock Way  
Sarasota, Florida 34240 USA  
+1 512-590-2544 [michael@drapkin.net](mailto:michael@drapkin.net)

4. Letter NN (Bar 463) – the offbeat melody figure in flutes, clarinets and oboes needs the flute to switch to piccolo for its entrance in the fourth bar, so I moved the oboe to the upper octave. There is so much going on in the orchestra there that no one can tell the difference. See *Figures 7 & 8*.

463 NN tempo primo piu animato

This musical score shows four staves: Piccolo, Flute 1,2, Oboe, and Clarinet 1,2 in Bb. The Piccolo staff is mostly silent, with a final note in the fourth bar. The Flute 1,2 staff has a melody starting in the second bar, marked *mf* *unis.* and *cresc.*. The Oboe staff has a melody starting in the second bar, also marked *mf* *unis.* and *cresc.*. The Clarinet 1,2 in Bb staff has a melody starting in the second bar, marked *mf* and *cresc.*. The key signature is one sharp (F#).

Figure 7: Original score with woodwind offbeats and Piccolo entrance.

463 NN Tempo primo piu animato

This musical score shows four staves: Flute, Oboe, Clarinet 1 in Bb, and Clarinet 2 in Bb. The Flute staff has a melody starting in the second bar, marked *mf* and *cresc.*. The Oboe staff has a melody starting in the second bar, marked *mf* and *cresc.*. The Clarinet 1 in Bb staff has a melody starting in the second bar, marked *mf* and *cresc.*. The Clarinet 2 in Bb staff has a melody starting in the second bar, marked *mf* and *cresc.*. The key signature is one sharp (F#). The Piccolo part is indicated by a bracket above the Flute staff in the fourth bar.

Figure 8: Flute moved to Piccolo; Oboe moved to Flute part.

## **Second Movement – II. Un Bal**

Video/Audio 12:55: <https://youtu.be/UdR1b8nFJ4c?t=775>

1. Second Movement Original Instrumentation:
  - Flute/Piccolo
  - Oboe
  - Clarinet 1,2 in A
  - Horn 1,2 in F
  - Horn 3,4 played by trombones
  - Harp (both parts combined into one player)
  - Strings
2. The 2<sup>nd</sup> Movement – A Ball – has lighter orchestration. Here Berlioz uses four woodwinds (the clarinets are playing on A clarinets, which put them in the key signature of C instead of Bb clarinets in the key of B), no bassoon, four brass (horns), no timpani but the addition of harp. The score calls for two harps, but we have only one harp available in our rescored Chamber Orchestra orchestration, so the parts were combined.

7965 Megan Hammock Way  
Sarasota, Florida 34240 USA  
+1 512-590-2544 [michael@drapkin.net](mailto:michael@drapkin.net)

### Third Movement – III. Scène aux champs

Video/Audio 18:50: <https://youtu.be/UdR1b8nFJ4c?t=1130>

#### 1. Third Movement Original Instrumentation:

- Flute
- Oboe
- Clarinet 1,2 in Bb
- Bassoon
- Horn 1,2 in F
- Horn 3,4 (rescored into the trombones)
- Timpani 1
- Timpani 2
- Strings

The instrumentation changes again in the slow third movement. There is no piccolo, the clarinets are back to Bb instruments, the bassoon is back, horns are the only brass instruments (with ersatz Horns 3 & 4 again filled in by the trombones), no harp, and two timpani for the thunder effects at the end of the movement (Bar 1072). Normally timpani are played by 4 players – one on a drum – but I combined them since we only have two percussion players in my reduced orchestration. So, each one will play two timpani. See *Figure 9*.

The image shows a musical score for two timpani parts, labeled 'Timpani 1' and 'Timpani 2'. The score is written in bass clef with a 2/4 time signature. Timpani 1 has a series of notes with dynamic markings: *pp*, *<sf>*, *p*, *pp*, *ppp*, *f*, and *pp*. Timpani 2 has a series of notes with dynamic markings: *p*, *<sf>*, *p*, *ppp*, *f*, and *pp*. The notes are grouped into measures, and there are slurs over some of the notes. The text '(baguettes d'éponge)' is written above the notes for Timpani 2. The dynamics are indicated by slanted lines and arrows pointing to the notes.

Figure 9: Four timpani drums played by two players.

7965 Megan Hammock Way  
Sarasota, Florida 34240 USA  
+1 512-590-2544 [michael@drapkin.net](mailto:michael@drapkin.net)

2. The next issue I experimented with and addressed when I was entering the score into Sibelius was what to do about the English Horn solo at the beginning and end of the movement. In the score in the beginning of the movement, Berlioz directs that the oboe plays offstage. The English horn starts off the movement with a solo alternated with the offstage oboe. See *Figure 10*. The challenge is that there is only one player available in my rescored orchestration that can double on oboe and English horn. That person could probably switch back and forth, but that would not only look comical, but they also need to play together at Bar 19. I needed to find a substitute in my existing orchestra instrumental configuration for English horn.

The image displays two systems of musical notation for Oboe and English Horn. The first system, starting at measure 896, is marked "(behind the scene)". The Oboe part is mostly silent, with a few notes in measures 897 and 898. The English Horn part has a "solo" marking and a dynamic of *p* (piano). The second system, starting at measure 902, shows the Oboe playing a melodic line while the English Horn plays a more rhythmic accompaniment. A double bar line is present between the two systems.

Figure 10: Original version with Oboe and English Horn.

I experimented with using muted trumpet - Chicago composer Easley Blackwood<sup>11</sup> used a muted trumpet as a substitute for English horn in his arrangement of Capriccio Espagnol, but I didn't like the timbre. See *Figure 11*.

<sup>11</sup> Easley Blackwood entry on Wikipedia: [https://en.wikipedia.org/wiki/Easley\\_Blackwood\\_Jr.](https://en.wikipedia.org/wiki/Easley_Blackwood_Jr.)

7965 Megan Hammock Way  
Sarasota, Florida 34240 USA  
+1 512-590-2544 [michael@drapkin.net](mailto:michael@drapkin.net)

896 mute solo  
Trumpet in C  
*p*

902  
Trumpet in C

Figure 11: English Horn solo moved to Trumpet.

I ended up using bassoon because it was available in my orchestration, and it was a double reed, so the tone quality is quite close to English horn. I consulted with a professional bassoon colleague because I was concerned about the range, but he assured me that it was fine with some minor modification to some of the octaves<sup>12</sup>. I don't think English horn players will be happy about losing their big solo, but that is one of the limitations of using a reduced orchestration. See *Figure 12*.

896 (behind the scene)  
Oboe  
Bassoon 1,2  
solo  
*p*

902 AA

Figure 12: Final version, with the English Horn solo moved to Bassoon.

<sup>12</sup> Email exchange on June 02, 2020 with leading New York freelance bassoonist and Manhattan School of Music (New York City) faculty member Harry Searing. His comment was, "I don't think anyone would really notice if you dropped the bassoon down an octave for that really high stuff (G, F, E), but I would keep the high D grace note to high C. That's just Rite of Spring stuff, I have high school kids that can play that now!" I followed his advice.

7965 Megan Hammock Way  
Sarasota, Florida 34240 USA  
+1 512-590-2544 [michael@drapkin.net](mailto:michael@drapkin.net)

3. Measure 928 (Letter CC) is a rescoring dilemma that comes up often. The melody in the flute and violins is harmonized, but there is only one flute available in our chamber orchestra rescore. The second flute harmony joins the first flute, which was playing alone with the violins. See *Figure 13*.

Figure 13: Original score with two Flutes unison with the Violins.

At first, I thought of replacing the Second Flute with the Second Clarinet, but then two thoughts came to mind. 1. If I do that, I will change the orchestration from flutes and violins to flute, clarinet, and violins. 2. The Second Flute part is doubled in the Second Violin. Therefore, I decided that I wanted to keep the flute sound on top of the First Violin but didn't need the Second Flute since it is already in the Second Violin, so the Second Flute harmony could be left off without adversely affecting the sound in that section. See *Figure 14*.

Figure 14: Flutes reduced to one Flute.

Sometimes the harmony in the two flutes is also doubled in the oboes, so I could safely have the one flute play the First Flute part and have the oboe play the Second Flute part, as is the case in #4 below. That way I could retain both the harmony and the color...perhaps not as strong as the original, but this is chamber orchestra – not

7965 Megan Hammock Way  
Sarasota, Florida 34240 USA  
+1 512-590-2544 [michael@drapkin.net](mailto:michael@drapkin.net)

full symphony orchestra, so it can be lighter. The goal is not to exactly replicate a symphony but to play this piece in the *context* of a chamber orchestra. So, the arbitrarily limited instrumentation of the chamber orchestra actually becomes an asset, as the audience becomes accustomed to hearing the piece relative to the size of the chamber orchestra in front of them and not be thinking that “this isn’t a full symphony.” They will instead hear Berlioz Symphony Fantastique in all of its glory performed in a chamber orchestra. I can listen to it on my iPhone speaker as well as on my massive home theater, and they both still sound like the same piece.

4. In the 3<sup>rd</sup> Movement at bar 1035, the two-flute harmony is doubled in the oboes, so I put the upper in the flute and lower in the oboe, which works and sounds fine, especially in a chamber orchestra. Plus, it is doubled in the clarinets. This situation arises frequently. See *Figures 15 & 16*.

The image shows a musical score for two staves: Flute 1,2 and Oboe. The Flute staff is in treble clef and the Oboe staff is in bass clef. Both staves start at bar 1035. The Flute part has a dynamic marking of *sf* (sforzando) followed by a hairpin to *p* (piano). The Oboe part also has a dynamic marking of *sf* followed by a hairpin to *p*. The music consists of a melodic line with a slur over the first two notes, followed by a rest, and then a final note. The Flute part has a slur over the first two notes, followed by a rest, and then a final note. The Oboe part has a slur over the first two notes, followed by a rest, and then a final note.

Figure 15: Original with two Flutes and two Oboes.

The image shows a musical score for two staves: Flute and Oboe. The Flute staff is in treble clef and the Oboe staff is in bass clef. Both staves start at bar 140. The Flute part has a dynamic marking of *sf* followed by a hairpin to *p*. The Oboe part also has a dynamic marking of *sf* followed by a hairpin to *p*. The music consists of a melodic line with a slur over the first two notes, followed by a rest, and then a final note. The Flute part has a slur over the first two notes, followed by a rest, and then a final note. The Oboe part has a slur over the first two notes, followed by a rest, and then a final note.

Figure 16: Rescored, retaining Flute 1 and Oboe 2 parts.

#### **Fourth Movement – IV. Marche au Supplice**

This is a movement that I very much looked forward to rescoring. When I was 14 years old, I entered high school and got involved in marching band. I joined both my high school band<sup>13</sup> as well as a local youth band. Southern California, USA, had a number of very active marching music circuits that included drum and bugle corps, which consist of brass, percussion, and flag groups. One such group was the Kingsmen Drum and Bugle Corp. of Anaheim, California, USA.<sup>14</sup> The Kingsmen won the first Drum Corps International<sup>15</sup> World Championship in 1972 held in Whitewater, Wisconsin, USA. Their 1974 field show featured Berlioz: Symphonie Fantastique, including the March to the Gallows,<sup>16</sup> and portions of the last movement.

Why am I discussing marching band in the middle of dissertation notes? Thanks to the Anaheim Kingsmen and the enormous enthusiasm I had for them, Berlioz Symphonie Fantastique became one of the first classical pieces I really learned on my own, plus it represented several other “firsts” for me:

1. March to the Gallows was the first arrangement I did for two clarinets and bassoon that I rescored by working out of a full score.<sup>17</sup> Before that I found easier media, like piano arrangements.
2. It was the first concert that I played as a Tanglewood Fellow – the summer home of the Boston Symphony – where I performed it under Seiji Ozawa.

Therefore, I have a lot of emotional attachment to this piece, and to this movement in particular, so I beg your indulgence for including drum and bugle corps in my dissertation. It is a great lifetime honor to rescore this piece.

---

+1 512-590-2544 [michael@drapkin.net](mailto:michael@drapkin.net)

As I mentioned near the beginning of this document regarding *Berlioz Orchestration*, Berlioz makes a lot of use of choruses in this movement: choruses of winds, brass, and strings. One favorite example is 5 bars after Letter H (Bar 1176), where he rapidly shifts back and forth in his orchestration. As you can see, he quickly shifts from brass, woodwinds, string (pizz then arco), woodwinds, brass, string pizz, percussion, strings and then woodwinds again. See *Figure 17*.

7965 Megan Hammock Way  
Sarasota, Florida 34240 USA  
+1 512-590-2544 [michael@drapkin.net](mailto:michael@drapkin.net)

The image displays a page of a musical score for an orchestra, starting at measure 82. The score is arranged in a standard orchestral format with staves for various instruments. The woodwind section includes Flute, Oboe, Clarinet 1 in Bb, Clarinet 2 in Bb, Bassoon, Horn 1 in F, Horn 2 in F, Trumpet in C, Trombone 1, Trombone 2, and Tuba. The percussion section includes Timpani 1 and 2, Suspended Cymbals, and Bass Drum. The string section includes Violin 1, Violin 2, Viola, Violoncello, and Contrabass. The score features dynamic markings such as *p* (piano), *f* (forte), *pizz.* (pizzicato), *arco* (arco), and *solo*. There are also performance instructions like "To Timp." and "To B. D.". The score shows a transition from a *f* dynamic to a *p* dynamic across the measures.

Figure 17: Shifting rapidly from one chorus to another. View/hear at <https://youtu.be/UdR1b8nFJ4c?t=2143>

Another example takes place later in the movement where it is “winds vs. strings (+ timpani).” It gets progressively shorter until everyone merges in a massive *ff* tutti. See Figure 18.

Sarasota, Florida 34240 USA  
+1 512-590-2544 [michael@drapkin.net](mailto:michael@drapkin.net)

The image displays a page of a musical score for the movement 'Battle of the Winds vs. the Strings' from Berlioz's Symphonie Fantastique. The score is arranged in a standard orchestral format with multiple staves. The instruments listed on the left are: Flute, Oboe, Clarinet 1 in Bb, Clarinet 2 in Bb, Bassoon, Horn 1 in F, Horn 2 in F, Trumpet in C, Trombone 1, Trombone 2, Tuba, Timpani 1, Violin 1, Violin 2, Viola, Violoncello, and Contrabass. The score includes various musical notations such as notes, rests, and dynamic markings (f, dim., p, pp, ff). A specific instruction '(Montez le Sib en Sib)' is written above the Timpani staff. The page number '18' is visible in the bottom right corner of the score area.

Figure 18: Battle of the Winds vs. the Strings. The Timpani lend the Strings a hand. See <https://youtu.be/UdR1b8nFJ4c?t=2263>

No discussion of this movement would be complete without pointing out one of his most famous (and amusing) programmatic orchestrations at 2 bars before Letter S (Bar 1263): The guillotine

7965 Megan Hammock Way  
Sarasota, Florida 34240 USA  
+1 512-590-2544 [michael@drapkin.net](mailto:michael@drapkin.net)

blade suddenly slams down at the end of the plaintive clarinet solo and the head goes bouncing down (SLAM, bounce, bounce, bounce) through the string section with the bouncing provided by the string pizzicatos. This is an execution, after all! See *Figure 19*.

The musical score for Figure 19 is a page from a score for Berlioz's *Symphonie Fantastique*, specifically the 'Decapitation' movement. It shows measures 167 through 171. The instruments listed are Clarinet I in Bb, Horn I in F, Trumpet in C, Trombone I, Tuba, Percussion (Snare Drum), Violin I, Violin II, Viola, Violoncello, and Contrabass. The score is in 3/4 time. The key signature has one flat (Bb). The music features a dramatic 'slam' (S) at the end of measure 171, which is a head bounce. The string section plays a rhythmic pattern of eighth notes, with the violins and violas playing pizzicato (pizz.) and the cellos and contrabasses playing pizz. The percussion part features a snare drum (S) playing a rhythmic pattern. The dynamic markings are *ff* (fortissimo) and *mf* (mezzo-forte). The score is marked with a '167' at the beginning of the first staff and an 'S' at the end of the last staff.

Figure 19: Decapitation, complete with head bounce. See/hear at <https://youtu.be/UdR1b8nFJ4c?t=2285>

See/hear: 31:19: <https://youtu.be/UdR1b8nFJ4c?t=1878>

7965 Megan Hammock Way  
Sarasota, Florida 34240 USA  
+1 512-590-2544 [michael@drapkin.net](mailto:michael@drapkin.net)

1. Fourth Movement Instrumentation:

- Flute
- Oboe
- Clarinets in C
- Bassoon
- Horns 1,2
- Horns 3,4 generally played by trombones
- 2 x Cornets
- 2 x Trumpets
- 3 x Trombones
- 2 Ophicleides (played by tubas)
- Timpani 1,2
- Snare drum, Cymbals, Bass Drum
- Strings

2. As much as I looked forward to rescoring this movement, I also saw it as a significant challenge. The score calls for 13 brass, but our chamber orchestra orchestration consists of six brass: two horns, one trumpet, two trombones, and tuba. However, if one used the 13 brass in the original score, the chamber orchestra would be overpowered. The rescored orchestration meant *one* trumpet available instead of the two trumpets and two cornets in the original score, so this was invariably less “brassy” but that also left the solitary trumpet carrying the soprano brass voice.
3. The original score calls for five percussion: two timpani, snare, cymbals, and bass drum. We had two percussion players available in our rescored chamber orchestra orchestration, therefore percussion rescore was a challenge. See #4 and #5 below.

7965 Megan Hammock Way  
Sarasota, Florida 34240 USA  
+1 512-590-2544 [michael@drapkin.net](mailto:michael@drapkin.net)

4. Bar 1178 posed a notational challenge. In this movement, Timpani 2 is played by Percussion, and needed to switch briefly at the 7<sup>th</sup> bar of H to cymbals and bass drum for just one bar, and then back to Timpani 2. I added an extra staff below that part as well as instrument changes for both cymbals and bass drum, and then instrument change back to timpani. I changed the text from Cymbals to Suspended Cymbals so that both instruments could be played by one player, and then have two measures to go back to timpani and pick up timpani mallets. See *Figures 20 & 21*.

The image shows a musical score for four percussion parts: Timpani 1, Timpani 2, Cymbals, and Bass Drum. The score is for measures 1178 through 1181. Timpani 1 starts with a solo in measure 1178, playing a half note G2. In measure 1179, it plays a sixteenth-note triplet of G2, marked *poco f*. In measure 1180, it plays a sixteenth-note triplet of G2, marked *cresc.*. In measure 1181, it plays a half note G2, marked *ff*, followed by a half note F2, marked *mf*. Timpani 2 is silent in measures 1178 and 1179. In measure 1180, it plays a sixteenth-note triplet of G2, marked *poco f*. In measure 1181, it plays a half note G2, marked *mf*. Cymbals have a solo in measure 1178, playing a half note G2, marked *p*. In measure 1180, it plays a sixteenth-note triplet of G2, marked *cresc.*. In measure 1181, it plays a half note G2, marked *mf*. Bass Drum has a solo in measure 1178, playing a half note G2, marked *p*. In measure 1180, it plays a sixteenth-note triplet of G2, marked *cresc.*. In measure 1181, it plays a half note G2, marked *mf*. A first ending bracket labeled 'I' spans measures 1180 and 1181.

Figure 20: Original score with four Percussion parts.

7965 Megan Hammock Way  
Sarasota, Florida 34240 USA  
+1 512-590-2544 [michael@drapkin.net](mailto:michael@drapkin.net)

The image shows a musical score for Percussion 2, divided into two systems. The first system covers measures 83 to 87, and the second system covers measures 88 to 92. The score is written for Timpani and Percussion parts.

**System 1 (Measures 83-87):**

- Measure 83:** Timpani and Percussion parts are silent.
- Measure 84:** Timpani has a *solo* dynamic. Percussion has a *p* dynamic. The Percussion part is marked "To B. D." (To Bass Drum).
- Measure 85:** Timpani has a *solo* dynamic. Percussion has a *p* dynamic. The Percussion part is marked "To B. D.".
- Measure 86:** Timpani has a *solo* dynamic. Percussion has a *p* dynamic. The Percussion part is marked "To B. D.".
- Measure 87:** Timpani has a *poco f* dynamic. Percussion has a *poco f* dynamic. Both parts play a sixteenth-note figure.

**System 2 (Measures 88-92):**

- Measure 88:** Timpani has a *cresc.* dynamic. Percussion has a *cresc.* dynamic. Both parts play a sixteenth-note figure.
- Measure 89:** Timpani has a *cresc.* dynamic. Percussion has a *cresc.* dynamic. Both parts play a sixteenth-note figure.
- Measure 90:** Timpani has a *ff* dynamic. Percussion has a *mf* dynamic. Both parts play a sixteenth-note figure.
- Measure 91:** Timpani has a *mf* dynamic. Percussion has a *mf* dynamic. Both parts play a sixteenth-note figure.
- Measure 92:** Timpani has a *mf* dynamic. Percussion has a *mf* dynamic. Both parts play a sixteenth-note figure.

Figure 21: Percussion 2 switching from Timpani 2 to Percussion and Back.

+1 512-590-2544 [michael@drapkin.net](mailto:michael@drapkin.net)

5. At the end of the fourth movement, I needed to cover three percussion parts with one player. After the decapitation in the fifth bar after R (Bar 1264), the snare drum comes in loudly until the end of the movement. The only problem is that we also needed violin reinforcement by cymbals and bass drum in their entrances in the last four bars. The solution was to alternate snare roll and cymbal/bass drum hits in those three bars, which worked fine with all of the sound going on, especially in the continuous timpani roll. See *Figure 22 & 23*.

Figure 22: Original score requiring 5 Percussion players.

Figure 23: Reduced to two players. Percussion 2 alternates between Snare roll and Cymbals/Bass Drum in the last four bars.

### **Fifth Movement – V. Songe d'une Nuit du Sabbat**

Movement V: Dream of a Witches' Sabbath. Berlioz's orchestration changes here with Clarinet 1 moving to Eb Clarinet and the addition of Chimes and Tuba for the Dies Irae section.

See/hear 38:26: <https://youtu.be/UdR1b8nFJ4c?t=2305>

#### 1. Fifth Movement Instrumentation

- Flute/Piccolo (two players)
- 2 x Oboes
- Clarinet 1 in Eb
- Clarinet 2 in C (transposed to Bb for convenience in my version)
- 4 x Bassoons
- 4 x Horns
- Trumpets
- 3 x Trombones
- Tuba
- 2 x Tympani
- Bass Drum
- Chimes (for the Dies Irae)
- Strings

7965 Megan Hammock Way  
Sarasota, Florida 34240 USA  
+1 512-590-2544 [michael@drapkin.net](mailto:michael@drapkin.net)

2. In the third bar we had some orchestration issues to resolve: the distribution of voices in a diminished chord in the woodwinds that was originally played by 7 players. The Piccolo was placed playing below the oboe in order to preserve the timbre of having the oboe on top of the chord just like in the original. The Eb clarinet was also used here, earlier than is indicated in the score. The net result is a woodwind chord that sounds virtually the same background to the string activity. See *Figures 24 & 25*.

Figure 24 shows a musical score for three woodwind parts: Oboe, Clarinet in C, and Bassoon 1,2. The score is for measure 1275. Each part has a sustained note with a dynamic marking of *poco f* at the beginning and *p* at the end, connected by a hairpin. The Oboe part is in G4, the Clarinet in C part is in G4, and the Bassoon 1,2 part is in G2. The notes are sustained across the measure.

Figure 24: Original score of the sustained diminished chord in the woodwinds at the 3rd Bar.

Figure 25 shows a musical score for five woodwind parts: Piccolo, Oboe, Clarinet in Eb, Clarinet 2 in Bb, and Bassoon. The score is for measure 3. Each part has a sustained note with a dynamic marking of *poco f* at the beginning and *p* at the end, connected by a hairpin. The Piccolo part is in G5, the Oboe part is in G4, the Clarinet in Eb part is in G4, the Clarinet 2 in Bb part is in G4, and the Bassoon part is in G2. The notes are sustained across the measure.

Figure 25: Rescored with the addition of Piccolo and Eb Clarinet. Note that Piccolo sounds an octave higher than written, so the Piccolo G sounds only a minor third below the oboe.

7965 Megan Hammock Way  
 Sarasota, Florida 34240 USA  
 +1 512-590-2544 [michael@drapkin.net](mailto:michael@drapkin.net)

- Letter E (Bar 1312) has an Eb Clarinet solo with two oboes and the Second Clarinet. Piccolo can't be switched to flute to fill in because the piccolo is needed on the 7<sup>th</sup> bar, plus it isn't *scharf und spitzig*<sup>18</sup> enough. First, I tried having bassoon play the Second Clarinet part and Second Clarinet on the Second Oboe part, but the bassoon is too heavy on the bottom, plus I needed the bassoon 16<sup>th</sup> notes on the 8<sup>th</sup> bar, where I can shed the Second Oboe part to no ill effect. The final choice was to keep the Second Clarinet on the original part and have bassoon play the Second Oboe part. That worked well and isn't too high for the bassoon. See *Figures 26 & 27*.

1312 **E** Allegro (♩ = 104)

1316

<sup>18</sup> Richard Strauss' directive to the Eb Clarinet in his tone poem *Ein Heldenleben* Op. 40, Letter 13: *sehr scharf und spitzig* (sharp and spitting).

7965 Megan Hammock Way

+1 512-590-2544 [michael@drapkin.net](mailto:michael@drapkin.net)

Figure 26: Original score.

40 **E** Allegro (♩ = 104)

Piccolo

Oboe

Clarinet in Eb

Clarinet 2 in Bb

Bassoon

44

Piccolo

Oboe

Clarinet in Eb

Clarinet 2 in Bb

Bassoon

Figure 26 shows the original score for measures 40-43. The Piccolo part is silent. The Oboe part has a *poco f* dynamic and a *solo* marking. The Clarinet in Eb part has a *poco f* dynamic and trills. The Clarinet 2 in Bb part has a *poco f* dynamic. The Bassoon part has a *poco f* dynamic. Figure 27 shows the rescored version for measures 44-47. The Piccolo part has a trill. The Oboe part has a *mf* dynamic and a trill. The Clarinet in Eb part has a *mf* dynamic and a trill. The Clarinet 2 in Bb part has a *mf* dynamic. The Bassoon part has a *mf* dynamic and a trill.

Figure 27: Rescored with Bassoon on the 2<sup>nd</sup> Oboe part.

7965 Megan Hammock Way  
Sarasota, Florida 34240 USA  
+1 512-590-2544 [michael@drapkin.net](mailto:michael@drapkin.net)

4. At Letter O (Bar 1459), I had the Percussion 1 player (normally on timpani) move over to bass drum while I had Percussion 2 playing chimes (starting at Letter I – Bar 1374) for the Dies Irae. But the timpani comes in again at 9 before Letter R (Bar 1504) in two parts, but they combined together well so from 9 before R, Percussion 1 is still on bass drum and Percussion 2 is on timpani playing the combined parts together. See *Figures 28 & 29*.

The image displays two musical staves for Percussion 1, Percussion 2, and Bass Drum. The first staff, labeled '1504 (baguettes d'eponge)', shows Percussion 1 playing a melodic line starting with a *mf* dynamic and a *cresc.* marking. Percussion 2 is silent in this measure. The Bass Drum plays a rhythmic pattern of quarter notes, also marked with *cresc.*. The second staff, labeled '1508', shows Percussion 1 and Percussion 2 playing together. Percussion 1 continues its melodic line, while Percussion 2 plays a rhythmic pattern. The Bass Drum continues its rhythmic pattern. The dynamics for Percussion 1 and Percussion 2 are marked *ff*, and the Bass Drum is also marked *ff*. A double bar line is present at the end of the second staff.

Figure 28: Original score at 9 before Letter R.

7965 Megan Hammock Way  
Sarasota, Florida 34240 USA  
+1 512-590-2544 [michael@drapkin.net](mailto:michael@drapkin.net)

The image shows a musical score for two percussion parts: Bass Drum and Timpani 2. The score is divided into two systems. The first system covers measures 232 to 236. In measure 232, the Bass Drum has a single note with a dynamic marking of *cresc.* The Timpani 2 part has a melodic line starting with a dynamic marking of *mf* and a *cresc.* marking. The second system covers measures 237 to 240. In measure 237, the Bass Drum has a single note with a dynamic marking of *ff*. The Timpani 2 part has a melodic line with a dynamic marking of *ff*. In measure 240, the Bass Drum has a single note with a dynamic marking of *ff* and the instruction "To Timp." written above it. The Timpani 2 part has a single note with a dynamic marking of *ff*.

Figure 29: Rescored for two players.

5. This movement calls for both Eb Trumpet and Bb Cornet. We have one C Trumpet player available in our Chamber Orchestra orchestration, so I have been putting the highest notes from both parts into C Trumpet so that we can hear trumpet timbre when it emerges, like in this example at 9 before R. See *Figure 30*.

7965 Megan Hammock Way  
Sarasota, Florida 34240 USA  
+1 512-590-2544 [michael@drapkin.net](mailto:michael@drapkin.net)

The image displays a musical score for a brass section, spanning measures 232 to 237. The instruments are Horn 1 in F, Horn 2 in F, Trumpet in C, Trombone 1, Trombone 2, and Tuba. The score is written in a key signature of two flats (B-flat and E-flat) and a common time signature (C).  
Measures 232-236: The brass instruments play a series of half notes, starting on G2 and moving up stepwise to G3. The dynamic is marked *f* (forte) with a *cresc.* (crescendo) instruction. The Tuba part is silent in these measures.  
Measure 237: The brass instruments play a series of quarter notes, starting on G2 and moving up stepwise to G3. The dynamic is marked *ff* (fortissimo). The Tuba part is silent in this measure.  
The score is divided into two systems. The first system covers measures 232-236, and the second system covers measures 237-237. A double bar line is present at the end of measure 236.

Figure 30: Trumpet at the top of the brass stack.

7965 Megan Hammock Way  
Sarasota, Florida 34240 USA  
+1 512-590-2544 [michael@drapkin.net](mailto:michael@drapkin.net)

- Two bars after Letter Y (Bar 1578), I changed the orchestration because of the lack of flute and Second Oboe. The flute player is on piccolo and the range is too low for the piccolo to play. I moved the flute part to the Eb Clarinet and the Second Oboe to Second Bb Clarinet. Everything then remains in the same tessitura as the original. See *Figure 31 & 32*.

Figure 31: Original orchestration.

Figure 32: Flute and Oboe parts moved to Eb and Bb Clarinet.

7965 Megan Hammock Way  
Sarasota, Florida 34240 USA  
+1 512-590-2544 [michael@drapkin.net](mailto:michael@drapkin.net)

7. One final note: I couldn't go through this piece without mentioning one of Berlioz's most interesting sections in this movement: he starts a very foreboding fugato at letter EE which builds up to a huge climax at letter II (shown below) of syncopated quarters that runs for four bars. Then he has brass barrel in offset by an eighth note (with tuba going up and down a diminished arpeggio) to create the aural impression of total pandemonium. See *Figure 33*. See/hear at <https://youtu.be/UdR1b8nFJ4c?t=2717>

The image displays a musical score for a brass section, starting at measure 395. The score is marked with a large Roman numeral 'II' and a fortissimo 'ff' dynamic. The instruments listed on the left are Piccolo, Oboe, Clarinet in Eb, Clarinet 2 in Bb, Bassoon, Horn 1 in F, Horn 2 in F, Trumpet in C, Trombone 1, Trombone 2, and Tuba. The Piccolo, Oboe, Clarinet in Eb, Clarinet 2 in Bb, and Bassoon parts play a syncopated quarter-note pattern. The Horn 1 in F, Horn 2 in F, and Trumpet in C parts play a similar pattern but are offset by an eighth note. The Trombone 1, Trombone 2, and Tuba parts play a diminished arpeggio pattern, also offset by an eighth note. The score is written in a key signature of one sharp (F#) and a time signature of 4/4.

Figure 33: Brass playing an eighth note offset from everyone else.
